

1st Munich 2D Materials Meeting (M2M)

Date: 24.01.2018

Time: 16:00 – 18:00

Location: Geschwister-Scholl-Platz 1 - N 110 (Altbau Physik)

Program:

16:15 – 16:45

Florian Sigger (TUM, AG Holleitner / Wurstbauer):

“Fabrication and characterization of VdW heterostructures”

16:45 – 17:15

Fabian Geisenhof (LMU, AG Weitz):

“Stacking transition in graphene multilayers”

17:15-17:45

Jakob Wierzbowski (TUM, AG Finley):

„Long-lived quantum emitters in hBN-WSe₂ van-der-Waals heterostructures”
