

2nd Munich 2D Materials Meeting (M2M)

Date: 9.04.2018

Time: 16:00 – 19:00

Location: Walter Schottky Institut ZNN, EG Seminarroom.

16:00 Welcome and Introduction (J. J. Finley)

16:05 Jessica Lindlau (Högele Group - LMU)
Signatures of Momentum Dark Excitons in bilayer TMDs

16:25 Chanyoung Yim (Duisburg Group - Universität der Bundeswehr)
Electrical characterization of PtSe₂-based devices

16:45 Bastian Miller (Wurstbauer Group - TUM)
Optical properties and electron phonon interaction in charge tunable TMDs

17:05 Sebastian Hammer (Krenner Group - U. Augsburg)
Hybrid functional oxide-2D Materials+photonic crystals

17:25 Nicolas Coca-Lopez (Hartschuh Group - LMU)
Nanoscale optical spectroscopy of 2D materials
