

5th Munich 2D Materials Meeting (M2M)

Date: 19.11.2018

Time: 16:00 – 18:00

Location: Geschwister-Scholl-Platz 1 - N 110 (Altbau Physik)

Schedule:

16:15 – 16:45

Fabian Geisenhof (LMU, AG Weitz):

“Heterostructure interface annealing at room temperature”

16:45 – 17:15

Elmar Mitterreiter (TUM, AG Wurstbauer)

“(Photo-)catalytic properties of pristine and defected MoS₂ mono – and multilayers”

17:15-17:45

Michael Förg (LMU, AG Högele):

„ Cavity-control of interlayer excitons in van der Waals heterostructures”

17:45 PI-meeting and lab-tours (parallel), afterward: snacks
