

6th Munich 2D Materials Meeting (M2M)

Date: 28.01.2019

Time: 16:00 – 18:00

Location: Geschwister-Scholl-Platz 1 - N 110 (Altbau Physik)

Program:

16:15 – 16:45

Marko Petrić (WSI, AG Finley):

TBA

16:45 – 17:15

Mie Andersen (TUM, AG Reuter):

2D material growth on liquid metals: role of liquid copper in high-quality graphene synthesis

17:15-17:45

Lucas Lange (LMU, AG Hartschuh):

Controlling Photon Antibunching from 1D Emitters using Optical Antennas

17:45 Snacks with parallel PI-meeting
